### **REASONS FOR ALLOWANCE**

1. The following is an examiner's statement of reasons for allowance:

Claim 21 is allowed because the prior art of record does not show or suggest an apparatus for checking a crankpin, orbitally rotating about a geometrical axis, in the course of the machining in a numerical control grinding machine including a worktable, defining said geometrical axis, and a grinding-wheel slide carrying a grinding-wheel, with a substantially tubular element, coupled to a first coupling element, that bears and guides an elongate rigid element along a direction substantially parallel to the first coupling element, in combination with the remaining limitations in the claim.

Claims 22 and 23 are allowed due to their dependency on claim 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
